Summary

Do you find the git push and PR notifcations in irc useful ?

1	0	0%
2	2	13%
3	2	13%
4	3	20%
5	8	53%

Would you prefer these notifications to stay in #jbosstools or move to one or more rooms ?

+1 - its too noisy, move it to another room	4	27%
+0 - it does not bother me	6	40%
-1 - lets just have one room, I hate too many rooms	5	33%

If we move notifications should it be moved to #jbosstools-dev or to individual/group room ?

+1 - multiple groups	1	7%
+0 - I dont care	6	40%
-1 - just one room	8	53%

If we create multiple rooms what granularity should it be ?

One group pr. git repository/jira component	6	40%
One group pr. working teams (#jbossstools-mobile, #jbossstools-javaee, #jbossstools-assparta,etc.)	9	60%

Got any other comments about our current irc setup ?

Pidgin (and proly adium) can be configured to simply IGNORE notifications from jbossbot.
 Or I just disconnect from IRC entirely when the pings/notifications get too noisy. Same for Skype.

I love the level of insanity in #jbossstools. I know that if I ask a question there, usually I'll have some sort of response in no time - even if it's a sarcastic one. :)

If PR notifications are moved to a new room, I don't think I'm gonna join that room :)

I'm for one single room

^ "If we create multiple rooms what granularity should it be ?" - I did not like the options but was required to pick one, instead I would liked to have picked the option "one room for all git (& jira) notifications"
